

Study Skills

1ST YEAR EXAM PREPARATION, SUMMER 2023

1. The Summer exams have twice as much content as the Christmas exams. If you prepare the same, your results are likely to be worse.

2. There's no need for extra study time each day. The secret is just LONGER PREPARATION. Inch by inch is a cinch, yard by yard is very hard.

3. Stay ACTIVE during each pomodoro. Attempting questions or writing notes from memory are great ways to test and build memory of the content.

4. If you can't find questions for any subject, then SUMMARISE, REVISE, TEST. Make your own notes or cards and test yourself on them.

5. The best exam preparation happens IN CLASS. Pay attention, ask questions and keep up with any work.

6. The most important exam you'll ever do is the next one. If you decide to take things easy now, you'll pay the price for it later.

If you're struggling, the worst thing you can do is to not say anything. Come and ask for help!
