

Greens Schools Tree Planting Project for Biodiversity

Our Biodiversity Plan

We approached our Principle with a plan to improve our school environment by planting more tree's and shrubs

We consulted Dale Skinner our landscaper and asked that many of the plants we wanted were to be Bee friendly.

The Parents Association

We needed funding for our project so we approached the Parents association out lying our project.

They supported our cause to improve the student environment around the school by planting more tree's and donated €3000 to our cause.

Planting the Shrubs

With the help of Dale, we selected where we would plant and what we would plant.

The trees and shrubs were delivered and we put on our wellies took up our shovels and started planting
