

COVID 19 IMPACT ON STUDENTS

St. Michael's College is committed to the safety of its students, staff and wider community in these exceptional times. With this in mind we have assessed the potential risks, and have appointed Covid Officers. In the 2019-20 academic year in line with Government Advice St Michael's College closed on March 12th 2020 and did not reopen for the remainder of the academic year. Online tuition was provided in many subjects. This was a new situation for staff and students and whilst the best efforts were made this was no substitute for face to face tuition. The Government of Ireland has recognised the difficulties that Covid – 19 has caused for students in all schools and has taken appropriate measures to address this.
